Isla Croll's attention-grabbing fusion of genres offers listeners her special brand of music. Her soulful voice comfortably blends Jazz and R&B classics while also embracing Indie, Country, Pop and Rock. As a singer, her voice is clear, highly emotive and athletic.

As a young songwriter, her songs are genuine and authentic. Her melodies are catchy, and her music has a bubbly persona which is delivered with a contemporary vibe.

Isla has been busy writing and producing material, her debut single, 'All About You', released in October 2020, and well received:

Her second single titled 'Irreplaceable' is out on 27th November 2020. The song continues the empowering message about self-worth, a theme that started with 'All About You'.
